

Concentration, Commitment and Professional for 23 years,
Creating The Best Pressure Vessel Exhibition in China

FLOWEXPO®

The 6th China(Guangzhou) International Industrial Boiler, Pressure Vessel and Pressure Pipeline Technology Exhibition 2020

Co-located: The 6th China(Guangzhou) International Gas, Cryogenic
and Natural Gas Equipment Exhibition 2020
The 23rd China(Guangzhou) International Valve Pipe
Fittings and Flange Exhibition 2020

Date: 10–12 May, 2020

Venue: China Import & Export Fair Complex, Area C

Organizers :

Guangdong Province Association for Special Equipment
Guangdong Industrial Gases Occupation Association
Guangdong Manufacturers Association
Guangzhou Hechuan Exhibition Service Co., Ltd.

Supporters :

South China Green Industry Innovation Alliance
Guangdong Industrial Park Association
Guangdong-CIS International Science and Technology Cooperation Alliance
Guangdong Fluid Machinery Technology Society
Zhejiang Pump and Valve Industry Association
Guangdong Electroplating Industry Association
Jiangsu Valve Industry Association
Guangdong Paper Industry Association
Guangdong Paint Industry Association
Maoming Petrochemical Industry Association
Huizhou Petroleum and Chemical Industry Association
Nanxiong Chemical Industry Association

Authoritative organizer

Guangdong Province Association for Special Equipment was established in September 2001, manufactured from special equipment such as boilers, pressure vessels (including gas cylinders), pressure pipes, elevators, lifting appliances, passenger ropeways, large amusement facilities and special motor vehicles in the field (including design, manufacture and installation), the use of relevant enterprises and institutions, research institutes, social organizations, voluntary formation, it is a non-profit social organization that benefits the industry in the province, registered by the Guangdong Provincial Social Organization Administration, with legal personality, accept the business guidance of the Guangdong Provincial Social Organization Administration and the Guangdong Provincial Bureau of Quality and Technical Supervision and other relevant functional departments of the Guangdong Provincial People's Government. The association is a 5A-level social organization in Guangdong Province. It is currently the vice president unit of China Special Equipment Safety and Energy Conservation Promotion Association and the vice chairman unit of China Boiler Water Treatment Association.

Why Exhibiting

Industrial boilers and pressure vessels are important thermal power equipment and energy storage equipment, it is an indispensable industrial equipment in all walks of life in the national economy. With the implementation of the national "Manufacturing 2025" and industrial transformation and opening up policies, industrial boilers and pressure vessels improve the technical level, accelerate the development of clean combustion technology, energy conservation and consumption reduction have become the key to the development of the industry. Future industrial boiler and pressure vessel industry, in areas such as energy conservation, environmental protection, new energy utilization, and information integration, through research and development, transformation, integration and innovation, form a group of key technologies with independent intellectual property rights, new products, new processes. Provide sufficient technical support for the sustainable development of China's industrial boiler and pressure vessel industry, promote better and faster development of the industry.

With the "Belt and Road" and the "Guangdong, Hong Kong and Macau Bay Area" national strategy. Guangzhou is a millennium business capital, "Pearl River Delta" economic zone central city, close to southeast Asia and Hong Kong, Macao and Taiwan, it is also the largest international import and export port and consumer base for industrial boilers and pressure vessels, with a superior geographical location and strong economic radiation capabilities. The 2020 China (Guangzhou) International Industrial Boiler and Pressure Vessel and Pressure Piping Technology Exhibition will be held on May 10-12, 2020 at the Canton Fair Exhibition, Will promote the industrial boiler and pressure vessel industry to develop better. The exhibition will be organized into an industry event featuring exhibitions, trade talks, technical exchanges and industrial investment.

2018 Facts and Figures

Exhibition area : 15,200sqm

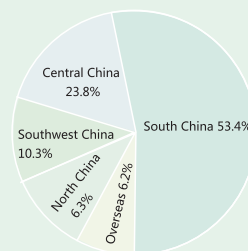

Exhibitors : 376

Visitor entries : 13,580

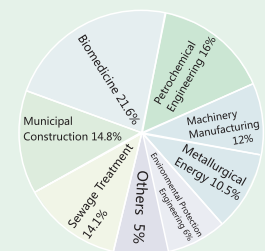

Concurrent events : 13

Conventioneers : 1558

Guangdong Province Association for Special Equipment Energy Conservation Committee
 Guangdong Province Association for Special Equipment Cylinder Conservation Committee
 Guangzhou Association for Special Equipment
 Shenzhen Association for Special Equipment
 Dongguan Association for Special Equipment
 Zhuahi Association for Special Equipment
 Zhaoqing Association for Special Equipment
 Foshan Association for Special Equipment
 Shaoguan Shunde Association for Special Equipment
 Heyuan Association for Special Equipment
 Huizhou Association for Special Equipment
 Jiangmen Association for Special Equipment
 Yangjiang Association for Special Equipment
 Maoming Association for Special Equipment
 Qingyuan Association for Special Equipment
 Chaozhou Association for Special Equipment
 Yunfu Association for Special Equipment
 Foshan Association for Special Equipment

Visitors Invitation

- 1. International trade platform for industrial boilers and pressure vessels:**the organizer will organize more than 10,000 professional visitors from more than 40 countries to visit and purchase.
- 2. The key invitation:**The organizers will invite people from the petrochemical, food and pharmaceutical,biomass energy,heating,printing and dyeing washing,electronic and electrical, transportation, automotive, paper printing, construction, municipal engineering, energy and environmental protection, machinery and equipment industries to visit and purchase.
- 3. Targeted invitations to international buyers:**The organizer has been exhibiting for 23 years,send regular mail to more than 600,000 overseas buyers in the database,feedback on the progress of the exhibition,help exhibitors explore overseas markets,it is estimated that there will be more than 500 overseas visitors in this exhibition.
- 4. Strong cooperation:**The organization unit cooperates with more than 60 relevant downstream industry business associations and more than 30 energy and chemical industry parks, invite professional visitors to visit and purchase.
- 5. All-round publicity:**The organization unit has reached strategic cooperation with more than 300 media and more than 50 overseas promotion platforms, and promoted it throughout the process.
- 6. Concurrent activities, looking forward to the future of the industry:**Held in conjunction with more than 20 activities,dialogue industry leaders, forward-looking industry development prospects, let the exhibition showcase exhibitions, trade exchanges, investment negotiations, and technical exchanges as one-stop activities.

Visitors Testimonials

We are from Uruguay,we are looking for new supplier, especially for Industrial boiler,pressure vessel and pressure pipeline products,the show is good and we will come to visit every year.
 -FIDEMAR S.A.,commercial manager of Fabian Beinhacker

We come from Thailand,we would like to check products from China which with good quality and technology to use in our country.
 -Sorrapong Udomsilp,general manager of SAS TECH SOLUTION CO.,LTD.

I am from Iran,I come here to see valve and pump.Normally we purchase these products from Europe but now we would like to check it in China.
 -Sanjesh Farayand Daghigh,general manager of Alireza Sadeghi

Concurrent Events

1. "The Belt and Road" International Energy Chemical Industry and Pumps Valves Pipes Technology Summit Forum
2. 2020 Industrial Boiler Pressure Vessel Summit Forum
3. 2020 South China Environmental Industry Development Forum and VOCs Governance Technology Exchange Conference
4. 2020 Guangdong Gas Technology Industry Exchange Salon
5. 2020 Technology Innovation Product Awards
6. 2020 High Temperature Alloys and Composites Key Technology Summit Forum

Exhibits Categories

1. Boiler Exhibition Area:

- All kinds of boiler products and technologies: power station boilers, waste incineration boilers, supercritical boilers, coal-fired boilers, organic heat carrier boilers, circulating fluidized bed boilers, cast iron boilers, fuel gas boilers, including condensing boilers, etc.
- Electric heating boiler: electric heating boiler, electric heating component products and safety control devices;
- Biomass utilization technology and products: biomass, wood chips, straw, boilers, municipal waste incineration boilers, biomass collection and processing equipment, etc. Other heating products and technologies; household boilers, wall boilers, hot blast stoves, solar energy utilization equipment, heat pumps, cogeneration equipment, etc. Waste heat, waste gas, waste utilization technology and products; various waste heat boilers, waste incineration Heat recovery equipment, etc.
- Boiler auxiliary equipment and combustion equipment: Boiler water treatment equipment, flue gas purification equipment such as dust removal, desulfurization and denitrification, boiler and system automatic control device, monitoring instrument and metering device, pump and valve, pipeline, heating and ventilation system equipment, combustion technology and products, various combustion devices, including fuel gas burning devices, coal burning devices, etc.
- Boiler production process equipment and materials: various steel and special steel, various welding technology and equipment, blanking and forming technology and equipment, non-destructive testing technology and equipment, mechanical processing technology and equipment, manufacturing testing instruments, various fireproof and wear-resistant materials, other related new materials.

2. Pressure Vessel Exhibition Area:

- One, two, three types of high, medium and low pressure vessels: used in metallurgical, petrochemical, pharmaceutical, food, printing and dyeing, environmental protection, aerospace and other pressure vessels; glass-lined stainless steel pressure vessels and non-ferrous metal pressure vessels;
- Non-metal pressure vessel: graphite, glass steel, full plastic pressure vessel;
- Cylinders: seamless gas cylinders, welding gas cylinders, liquefied petroleum gas cylinders, dissolved acetylene cylinders, vehicle cylinders, low temperature insulated cylinders, wound cylinders, non-refillable cylinders, special cylinders, cylinders loading measurement and safety equipment, etc.
- Mobile pressure vessels: railway tankers, automobile tankers, long tube trailers, tank containers, tank trucks.

3. Pressure Pipeline Exhibition Area:

Oil pipelines, gas pipelines, gas pipelines, heat pipes, process pipes, power pipes, refrigeration pipes, seamless pipes, welded steel pipes, non-ferrous metal pipes, cast iron pipes, non-metallic materials.

4. Safety Valve Exhibition Area:

Heavy hammer lever safety valve, spring micro-open safety valve, pulse safety valve, fully enclosed safety valve, semi-closed safety valve, open safety valve, spring micro-enclosed high pressure safety valve, spring full-open safety valve, chinese safety valve, direct acting safety valve, non-direct acting safety valve, normal temperature safety valve, high temperature safety valve, fixed non-adjustable safety valve, adjustable safety valve, etc.

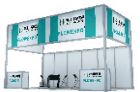

5. Third-party testing instruments, supporting production enterprises and testing institutions:

boiler testing equipment, pressure vessel testing equipment, pressure pipeline testing equipment, intelligent control, testing instruments, testing and metering devices, special equipment testing systems, intelligent metering and control systems, Non-destructive testing equipment, flue gas testing equipment, quality inspection information system solutions, testing and certification institutions (special equipment license, management system certification, industrial product certification, EU certification, qualification certification, management consulting projects, etc.).

6. Manufacturing Technology:

Welding equipment, coiling machine, pipe forming machine, CNC pipe machine, chamfering machine, sand blasting machine, tank type electric grinder, non-connected testing equipment, etc.

Stand Prices and Facilities

	Raw space(up to 36sqm) USD \$ 200/sqm	Location close to the entrance/exit or main corridor Exhibitors bear the cost of booth construction
	Luxury booth(up to 18sqm) Shell booth with one side open USD \$ 4500/18sqm	4 meters height 2 information counter 2 display cabinet 2 meeting table 8 chairs 2 dustbin, carpet 6 LED spotlights 2 metal halide Lamp 1 electric socket(220V and 500W)
	Shell booth with one side open USD \$ 2000/9sqm Shell booth with corner USD \$ 2200/9sqm	2.5 meters height 1 information counter 2 chairs 1 dustbin, carpet 2 daylight lamps 1 electric socket(220V and 500W)
