

Concentration, Commitment and Professional for 23 years,
Creating The Best Gas Exhibition in China

FLOWEXPO[®]

The 6th China(Guangzhou) International Gas,Cryogenic and Natural Gas Equipment Exhibition 2020

Co-located:The 23rd China(Guangzhou) International Valve,Pipe Fittings and
Flange Exhibition 2020

The 6th China(Guangzhou) International Industrial Boiler,Pressure
Vessel and Pressure Pipeline Technology Exhibition 2020

Date:10-12 May,2020

Venue: China Import & Export Fair Complex, Area C

Organizers :

Guangdong Industrial Gases Occupation Association
Guangdong Province Association for Special Equipment
Guangdong Province Association for Special Equipment
Energy Conservation Committee
Guangdong Province Association for Special Equipment
Cylinder Conservation Committee
Guangdong Manufacturers Association
Guangzhou Hechuan Exhibition Service Co., Ltd.

Supporters :

Guangdong Industrial Park Association
South China Green Industry Innovation Alliance
Zhejiang Pump and Valve Industry Association
Guangdong-CIS International Science and Technology
Cooperation Alliance
Jiangsu Valve Industry Association
Hubei Industry Gas Association
Guizhou Industry Gas Association
Yunnan Industry Gas Association
Maoming Petrochemical Industry Association
Huizhou Petroleum and Chemical Industry Association
Nanxiang Chemical Industry Association

The Guangdong Industrial Gas Industry Association is a social group jointly established by many gas production enterprises in Guangdong Province, as well as gas-related equipment manufacturers, gas research and development, and gas service related units. The association has nearly 200 members, and many large-scale air separation enterprises and gas production enterprises in Guangdong Province form a board of directors. The senior management of each company serves as the president and vice president. It is the most authoritative gas industry organization in Guangdong Province.

Why Exhibiting

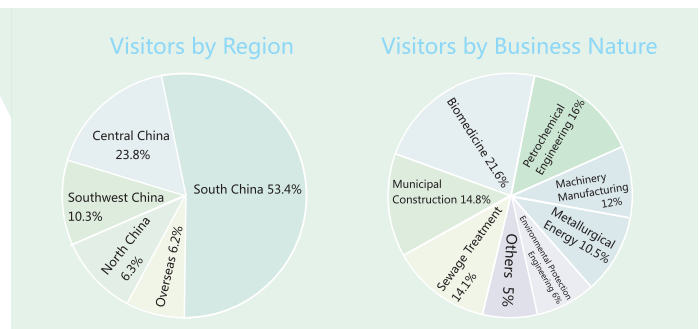

Industrial gases are referred to as industrial "blood". With the rapid development of China's economy, industrial gases, as one of the basic industrial factors of the national economy, have become increasingly prominent in the national economy. The state proposed the "Made in China 2025" strategic planning and supply-side reform, and the transformation and upgrading of enterprises provided favorable policies for industrial development. According to relevant statistics, the industrial gas industry will increase at an annual rate of 11% in the next five years, reaching a market scale of 200 billion by 2025.

China(Guangzhou) International Gas,Cryogenic and Natural Gas Equipment Exhibition 2020 is co-located with The 23rd China(Guangzhou) International Valve,Pipe Fittings and Flange Exhibition 2020 in 10-12 May in Guangzhou. FLOWEXPO was founded in 1997 and hold annually in Guangzhou. It is recognized by industry for its "Professional Exhibition, Buyers Matching, Remarkable Effect" , and it is also a brand exhibition recognized by Guangzhou Government. Our exhibition is one of the largest, most professional and most advanced technology in the fluid industry. It is an important channel for brand promotion, engineering procurement, technology procurement, supporting cooperation, user negotiation, import & export, distribution agency, OEM etc.

As the country promotes the integration of the Greater Bay Area, Guangzhou, as the capital city of Guangdong Province and the central city of Dawan District, its superior geographical position is even more apparent. According to relevant statistics, the industrial gas consumption in Dawan District accounts for more than 25% of the country. Due to the special service radius of industrial gas, industrial gas technology and equipment in Dawan District will have huge rigidity demand in the future. The "2020 China (Guangzhou) International Gas, Cryogenic Equipment and Natural Gas Equipment Exhibition" will be held in the Canton Fair Complex on May 10-12, 2020. It will provide the best trade for the industry in exhibitions, trade cooperation, technical exchanges and brand promotion platform.

2019 Facts and Figures

Exhibition area :	15,200sqm
Exhibitors :	376
Visitor entries :	13,580
Concurrent events :	13
Conventioners :	1558

VIP Buyer Groups

Guangdong Industrial Gases Occupation Association
 Guangdong Province Fluid Mechanical Technical Institute
 Southern China Green Industrial Innovation Alliance
 Guangdong Electroplating Industry Association
 Guangdong Paper Association
 Guangdong Coating Industry Association
 Maoming Petrochemical Industry Association
 Huizhou Petrochem and Chemical Industry Association
 Guangzhou Machine Tool Industry Association
 Nanxiong Chemical Industry Association

Visitors Invitation

1. Guangdong Industrial Gases Occupation Association will organizer members to exhibit and visit, organizer will also invite visitors from Hongkong and Macau.
2. The key invitation: The organizers will invite people from the petrochemical, electronic and electrical, transportation, automotive, paper printing, construction, municipal engineering, energy and environmental protection, machinery and equipment industries to visit and purchase.
3. Targeted invitations to international buyers: The organizer has been exhibiting for 23 years, send regular mail to more than 600,000 overseas buyers in the database, feedback on the progress of the exhibition, help exhibitors explore overseas markets, it is estimated that there will be more than 500 overseas visitors in this exhibition.
4. Strong cooperation: The organization unit cooperates with more than 60 relevant downstream industry business associations and more than 30 energy and chemical industry parks, invite professional visitors to visit and purchase.
5. All-round publicity: The organization unit has reached strategic cooperation with more than 300 media and more than 50 overseas promotion platforms, and promoted it throughout the process.
6. Concurrent activities, looking forward to the future of the industry: Held in conjunction with more than 20 activities, dialogue industry leaders, forward-looking industry development prospects, let the exhibition showcase exhibitions, trade exchanges, investment negotiations, and technical exchanges as one-stop activities.

Visitors Testimonials

We are from Uruguay, we are looking for new supplier, especially for Gate valves, butterfly valves and water treatment products, the show is good and we will come to visit every year.
 -FIDEMAR S.A., commercial manager of Fabian Beinhacker

We come from Thailand, we would like to check products from China which with good quality and technology to use in our country.
 -Sorrapong Udomsilp, general manager of SAS TECH SOLUTION CO., LTD.

I am from Iran, I come here to see valve and pump. Normally we purchase these products from Europe but now we would like to check it in China.
 -Sanjesh Farayand Daghigh, general manager of Alireza Sadeghi

Concurrent Events

- ◆ 2020 Guangdong Gas Technology Industry Exchange Salon
- ◆ "The Belt and Road" International Energy Chemical Industry and Pumps Valves Pipes Technology Summit Forum 2020
- ◆ Guangzhou Pump Systems Energy-saving Technology Forum
- ◆ South China Environmental Industry Development Forum and Water Treatment Technology Exchange Meeting
- ◆ 2020 Technology Innovation Product Awards
- ◆ The Belt and Road Fluid and Gas Equipment International Procurement Meeting

Exhibits Categories

1. Industrial gas equipment and technology:

- Industrial gases: general industrial gases, electronic industrial gases, high purity gases, standard gases, etc.;
- Industrial gas equipment, systems and technologies: air separation, dissolved acetylene gas, hydrogen production equipment and technology; pressure swing adsorption, membrane separation, gas purification, carbon dioxide, liquefied natural gas equipment and technology; other industrial gases, rare gas production technology equipment and recycling Processing technology, mixed gas, standard gas and its preparation technology;
- Auxiliary equipment and materials for industrial gases: gas valves, air compressors, oxygen compressors, hydrogen compressors, nitrogen compressors, carbon dioxide compressors, acetylene compressors, diaphragm compressors, expanders (pistons, turbines), vacuum pumps, cryogenic liquid pump and its vaporization equipment, heat preservation, adsorption materials, gas filling equipment, welding and cutting equipment, catalysts, molecular sieve drying equipment, industrial gas purification equipment and technology;
- Industrial gas transportation and packaging materials: high and low pressure gas cylinders, low temperature insulated gas cylinders, wound gas cylinders, aluminum alloy gas cylinders, cryogenic liquid storage tanks;
- Gas analysis and application: instrumentation dew point meter, gas chromatograph, spectrometer, mass spectrometer, zirconia oxygen analyzer, micro analyzer;
- Industrial gas storage and transportation equipment: various fixed and mobile gas storage containers, gas storage tanks, gas storage bottles, special containers, and transportation pipelines;
- Industrial gas transport vehicles: low-temperature transport vehicles, chemical liquid transport vehicles, car transport vehicles, all kinds of fences, warehouse-type transport semi-trailers, all kinds of tank transport vehicles.

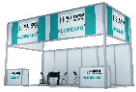

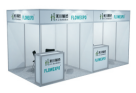

2. Liquefied natural gas, liquefied petroleum gas (LNG, LPG):

- LNG and LPG engineering technologies:LNG receiving station engineering,LNG liquefaction plant engineering, FPSO liquefaction engineering,LNG vaporization plant engineering,LNG satellite station engineering;
- Natural gas purification technology: carbon dioxide removal technology and equipment, sulfide removal technology and equipment, dehydration drying technology and equipment, heavy hydrocarbon separation technology and equipment, harmful impurities removal technology and equipment;
- LNG logistics and transportation equipment categories: large LNG shipping tankers, small and medium-sized LNG shipping tankers, inland LNG transport tankers, LNG road transport tankers;
- Natural gas vehicles and vessels: NGV and LNG fuel vessels;
- LNG filling station equipment category: LNG filling machine main body, flow measuring device, LNG filling pump, LNG filling gun;
- Cryogenic liquid pump power equipment category: large LNG storage tank built-in submersible pump, LNG loading pump, LNG unloading pump, normal temperature and high temperature liquid pump.

3. Cryogenic equipment (devices) and technology:

- Cryogenic container, cryogenic liquid tank, tank container, pressure vessel, cryogenic liquefaction equipment, cryogenic liquid trailer, liquid tank, cryogenic equipment, cryogenic fixed storage tank, cryogenic equipment, etc.;
- Various types of cryogenic valves: cryogenic valves, cryogenic regulating valves, cryogenic shut-off valves, safety valves, cryogenic conveying/cold tanks and tank liquid pipes, joints, valves, insulation devices, etc.;
- Cryopumps, cryogenic reactors, expanders, reactors, compressors, liquid pumps, vaporizers, heat exchangers, automatic filling stations and gas station equipment, liquefaction and regasification equipment for natural gas.

Stand Prices and Facilities

	Raw space(up to 36sqm) USD \$ 200/sqm	Location close to the entrance/exit or main corridor Exhibitors bear the cost of booth construction	
	Luxury booth(up to 18sqm) Shell booth with one side open USD \$ 4500/18sqm	4 meters height 2 information counter 2 display cabinet 2 meeting table 8 chairs	2 dustbin, carpet 6 LED spotlights 2 metal halide Lamp 1 electric socket(220V and 500W)
	Shell booth with one side open USD \$ 2000/9sqm Shell booth with corner USD \$ 2200/9sqm	2.5 meters height 1 information counter 2 chairs 1 dustbin, carpet	2 daylight lamps 1 electric socket(220V and 500W)
